Summary

Software Development Engineer III at Expedia Group with 6+ years of industry experience in full-stack development, cloud architecture, and data engineering. Expert in Scala, Java, Python, Apache Kafka, Spark, and AWS services. Led high-performance applications processing 100K+ daily documents and designed serverless microservices architecture.

Skills

Languages: Java, Scala, Kotlin, Python, NodeJS, ReactJS
Backend: Spring Boot, Dropwizard, REST APIs, gRPC, GraphQL, Microservices
Cloud: AWS, Azure, GCP, Lambda, DynamoDB, S3, EC2
Big Data: Apache Kafka, Apache Spark, MySQL, PostgreSQL, MongoDB
DevOps: Docker, Kubernetes, Jenkins, GitHub Actions, CI/CD

Experience

Software Development Engineer *Jan 2021 – Present*
Expedia Group, Austin, TX

- Developed **VRBO fraud-events project** processing **goodwill payouts to partners** with real-time fraud detection algorithms
- Leading high-performance **Scala-based Spark applications** processing 100K+ daily documents through intelligent data aggregation
- Designed **serverless microservices architecture** using **AWS Lambda**, **DynamoDB**, and **SES**, reducing processing overhead by 80%
- Modernized legacy stack by upgrading 10+ applications from **Java 1.7 to Java 17**, improving performance and security

System Engineer *Nov 2016 – Jan 2019*
Tata Consultancy Services, Mumbai, India

- Designed **Medibot** digital assistant serving 1.5M users with multi-channel integration using **Google Dialogflow**, **AWS Lex**, and **Microsoft LUIS**

Education & Certifications

MS Computer Science *Dec 2020*
University of Texas at Dallas, Dallas, TX
BE Computer Engineering *May 2016*
University of Mumbai, Mumbai, India

AWS Certified Solutions Architect - Associate *Jan 2025 – Jan 2028*
AWS Certified Developer - Associate *Jun 2018 – Jun 2021*
AWS Certified Machine Learning - Specialty *Aug 2019 – Aug 2022*
